Chrysler & Mopar 1960-1976 Products

- * Acme has made headliners since 1949. We have the broadest range of headlining patterns and related products worldwide. Patterns used to reproduce our headliners were made, and have been in continual use, since the year each model was introduced. In addition to our regular line of reproduction headlining we stock over 1,000 colors of New Old Stock headlining material. A center line is drawn on the back side to assist with alignment. Three inches of excess fabric is allowed around the perimeter for stretching and trimming
- * We catalog what is most common and original however, we will make any headliner out of any material and any color at the customer request.
- * All items listed below are by Year, Model and Material
- * If Headliner only is ordered material for Quarter/Sail Panels is included as needed.
- * Chrysler products with cardboard headliners and many Dodge / Plymouth Hard Top models from 1957-1963 and all 1957-1971 Wagons, were originally equipped with board style headliners. A conversion (bow suspended) style headliner is offered for these models. Part numbers for the conversion headliners are designated with an "X" after the part number. Please note the following:
The conversion headliner kit is shipped with bows necessary to suspend the headliner. Measuring and drilling is required.
- * Original headliner board (or boards) along with any support stays are removed and discarded.
- * Headliner is stretched into place, edges trimmed and finished much like a conventional bow suspended headliner found in a vintage car.
- * Some hard top models built prior to 1964 had exposed chrome bows over the headliner seams. These headliners are sewn with cardboard on face side of headlining to accommodate chrome bows as original.

Although Acme maintains records of what was exact original headliners for all cars, most exact original materials are no longer available. The replacement cloth and vinyl described below have become the industry standards.

All Headliners and Sunvisors listed below are available in the following materials. Please add color number to end of part number when ordering.

Headliners, Quarter / Sail Panels and Sunvisors - Materials available as follows:

Premier Perforated Grain Vinyl - Also known as Snakebite or Double Perforated Used as a replacement for most 1963-1971 Chrysler products
