

1936 to 1978 Cadillac Passenger Car

- * Acme has the broadest range of Headlining Patterns worldwide that has been in continual use since the individual models were built.
- * The Headlining is made of the highest quality headlining weight vinyl or cloth available.
- * The Headlinings are tailored to fit the individual models. A center line is drawn on the back to assist alignment. Three inches of excess fabric is allowed around perimeter for stretching and trimming.
- * Metal Support Bows are re-used (transferred) from the old headliner. If bows have been discarded, replacement hardware is available that can be fitted by the installer.
- * Drop shipping is available at no extra charge.

Hard Top Models for 1950-1958 with exposed chrome bows. These headliners are made as original with Cardboard (or plastic sewn on the face side of headliner to accommodate chrome bow.

All Models of 1973 to 1976 are installed with "T" Hangers and are included with Headliner. There is no need for the installer to transfer or improvise.

All Headliners listed below are available in the following materials. Please add color # to end of part number when ordering. For Sun Roof vehicles add "SR" to end of part number and add \$15.00 to price for extra material for Sun Roof Lid.
