PRODUCTS FOR VOLKSWAGENS

HEADLINING - Acme offers two styles of Volkswagen Beetle headlining:

- 1) ORIGINAL STYLE: Exact duplicate of original headlining, with quarter and rear window sections separate from overhead section. Includes sewn-in cardboard, as original. This style should be used when vehicle is being restored to "Factory Original" specifications.
- 2) CONVERSION STYLE: "One Piece" type headlining, includes center, quarters and window section. This style is less expensive, easier to install, but is not "Factory Original."
- 3) All beetles include material for door posts with the plastic windlace attached. If headliner color is other than Black or White, please specify color of windlace you would prefer. (if none specified, Black will be sent).
- 4) Prices shown are for original VW Single Hole Perf or Non Perf as sampled in current auto marine chart. For custom headliners, made in other reproduction colors currently offered use "C" Price Code. Original colors are Off White HDL-1001 Perf, HDL-1003 Non Perf, Black HDL-1000 Perf, HDL-1002 Non Perf, Pure White HDL-1004 Perf. Exceptions: For Ghia, (not convertible), use "A" Price Code. Van Headlining in non-original colors use Van Price. For Convertible Headliners see Top guide.
